IAAI-CFI Report for 2023

Since the UK established protocols with IAAI HQ to administer the IAAI-CFI in the UK, we have had 126 members and other interested parties request application packs. Of those applications 36 have successfully challenged the certification process.

This past year we have had three more successful applicants, and so we congratulate Liane Crouch, Martin Lown and Sean Smith on their newly acquired IAAI-CFI status.

According to the IAAI website, there are 15 CFIs in the UK. Adding our recent successes, that reaches a level of just 18.

I have been the Proctor for the IAAI-CFI here in the UK for the past 20 years as I was the first IAAI-CFI in the UK having taken the oral examination at the IAAI ATC in Reno, Nevada.

It is now time for me to hand the baton over to a successor, namely James Acott, who has agreed to manage the process on behalf of the UK Chapter.

Should any member require details of the IAAI-CFI certification process, all enquiries should, from now on, be directed to James.

John Galvin
Past President
